Equine Coaches and Instructors can be confident knowing they're well protected.

The OE Instructor and Competition Coach Cohorts have been developed to address several issues candidates commonly face:

Evaluation Prep

Without a mentor, access to training and clear instructions of what is expected, evaluations can be very stressful for candidates

Cost

Coach certification can be expensive for candidates! With mentoring, training, registration for an in-person evaluation - and even travel and lost wages during the evaluation dates, candidates need a better solution.

Inefficient Process

So many steps from application to completed evaluation, that candidates can feel overwhelmed if they don't have a mentor to help guide them.

Location

It's harder to find facilities willing to host evaluations in every geographic area - Evaluations are not accessible to those in remote areas forcing extra travel on some candidates

To help solve the problems, OE has designed these cohorts to provide:

Access to Information

EC NCCP LTED and EC NCCP PAEP training are built into the cohort schedule. Proper pre-brief & debrief for each evaluation outcome by a Coach Evaluator

Cost

Lower costs for candidates and includes training and mentoring. *More details on the next slides

Efficient Process

Work smarter, not harder - using a new platform: C.H.A.R. Clear resources and a step-by-step approach to working through the evaluation available to candidates

Location

Process will be completed through a digital platform and video evaluation. This makes it accessible to everyone!

To provide more thorough preparation mentoring, experienced coach developers will use a variety of training resources to help candidates prepare, including:

Candidates involved in an Instructor or Competition Coach training and certification cohort will be expected to:

Take the Training

- Attend the cohort meetings
- Complete "homework" between meetings including building portfolio pieces and filming lessons for evaluations.

Collaborate with Peers

- Share ideas, input, feedback and learning with your colleagues in the cohort.
- Engage in discussions during meetings to prepare for evaluation.

Embrace the Opportunity

- Work with a mentor through training and evaluation to improve your coaching skills
- Complete your certification by video at your own facility, with horses, riders and the environment you know.

Join an Ontario Equestrian cohort and take the first steps to your equestrian coaching career!
